“ I was real sick couldn't hardly walk and my husband told me to get up, he was going to take me to see Barry . This was in 2013 , Barry told me , I had kidney stones and one kidney had already shut down and the other one was about to. He didn't no that I had went to a Hospital weeks before and they told me , I had multiple stones. So I just want to say, Barry help save my life and he was a very interesting person, very knowledgeable. So sorry for your loss of your love one. My husband passed away March 22, 2018 , Karl really did enjoy visiting with Barry. God Bless

“ Thinking of Barry and his family during this special season. Still sad not to be able to find him at Remedies. I would share one of my Italian dishes with him when i visited, which he would happily light up with the prospect of enjoying it. His notes would read to "contessa", "Mamma Mia" , made me smile always. He was an extraordinary man, sorely missed.

“ *Mr Joneshill (as I knew him) was my 5th grade teacher. He was my first teacher when we moved to Haines, Alaska, and my first teacher that wasn't one of my parents. By the end of my 5th grade year I still believed that all teachers consider each of their students to be family. He made each of us feel special and important, and inspired us to learn more and be better people. He left a lasting impression on my life.*

“ *Barry and I worked together for 5 years at Mosquito Lake School, a rural 2 teacher school 30 miles out of Haines, Alaska. Barry was a wonderful partner teacher who worked with a high level of efficiency and creative spirit. His class put on wonderful skits while my class did the same.*

Over the years I spoke often with a southern accent and perhaps one that was more determined than Barry's. It is no wonder that I called Barry, Brother Barry.

Barry was a tremendous artist and writer. He kindly gave me 2 paintings and wrote very descriptive letters after he left ML School and retired from Alaska teaching.

He was a great friend as well as an excellent teacher.

He has not just left his wife, children and grandchildren, but he has left a great many friends and healed patients, a heritage of which we are all happy to have been a part.

“ *As my son's 5th grade teacher, Barry was one who really made a difference. He was ahead of the curve recognizing that each student had different strengths and needs. He brought out the very best and allowed kids to focus on their own creativity. We are grateful for his always going the extra mile for students.*

“ I was fortunate enough to know Barry in Skagway, AK back in the 70's. He was a delightful and truly gifted man. I guess I think of him in special way because I bought a beautiful oil painting of his inspired by the moon reflecting on Alaskan snow through the trees. It is a treasure that has hung in my home since that time. Thank you, Barry, for all the gifts you shared.....

“ Heaven gained a jewel! He was such a caring man. I still can't believe he is gone. He was such a blessing to our family! We loved to visit him. You felt the Holy Spirit when you walked into see him. He had a heart for people. He never forgot your name or your children's name. I have been coming to him for years. I came every two months or so. He loved his children and talked of them often. We have adopted 4 girls and he gave us so much wisdom to unite us as a family. He talked often of his adopted son. He loved him dearly. The world will not be the same without him. I pray peace for his family! I pray his children know how much he loved them.

“ God in Heaven really blessed me to meet Barry for the first and only time back in August 2017. I live in Florida and my family in Arkansas continued to encourage me to “come see Barry.” They we’re right...it was necessary and more than a blessing. I’m so grateful to God for granting me that opportunity to meet one of His special angels here on earth. To God be the glory. I pray that Barry’s family will be comforted by fond memories of their beloved. God has pluck one of His most amazing flowers...Barry will be dearly missed until will meet again.

“ Barry Joneshill was a very special person. I met him almost twenty years ago and immediately felt that God had given Barry a special gift that he was happy to share with everyone who came his way. Barry had a kind and giving heart, and he helped us all when we needed him. Many, many people that I know have been blessed by Barry's gift over the years. Some from far away. And anywhere you go and strike up a conversation with a perfect stranger you find out pretty soon that they have been to see Barry or at least have heard of him and intend to. Over the years I've seen and talked with Barry several times. I haven't been able to get to go see him lately. But only a few weeks back I was blessed to speak with him by phone, not knowing it would be my last time. As always he attended to my need. I will miss Barry's kind and gentle nature as well as his sense of humor. And of course I will miss his gift.

This earth has lost a special man. Our loss is Heaven's gain.

May God bless Barry's family and comfort each of them in their great loss.

“ Barry Joneshill was one of the most unique and interesting individuals I was blessed to know. Most of my memories came from my childhood with Barry. Our families were very intricately connected and we shared many wonderful camping trips, dinners, and night jeep rides through the old dirt roads of the Ozarks. I think Barry was a bit ahead of all of us in many ways. He led a holistic health movement before it was popular. I wish I had made the time to go see him in my adult life. I think the last time I saw him was in my college days when I just stopped by for a visit. I will always remember Barry as a kind soul, with a creative and free heart and the only dad of my childhood buddies who could fix a girls hair better than any mom I knew! :) He also had a knack for whipping up left-overs into a lovely dish.... {Smile}. He leaves behind love, wisdom and grace for truly ALL belong in this world and he knew that better than many.

It was a highlight of my childhood, when Barry and Nancy built their house down the road from the Prantl Farm. Visiting Windborne was always fun and also informative. You would always learn things while having a great time at the Joneshill's. The stories and photographs from his time in Alaska were definitely attention grabbers from a young farm boy. I recall him being into holistic health all the way back then too. I am glad some of his knowledge soaked in! Barry was the first adult I remember considering "cool." When I first had to start wearing glasses, I wanted the round wire rimmed style, because those were the kind Barry wore. I am deeply saddened to hear of his passing. Time spent with Barry and his family was certainly time well spent. I wish I had kept up with him in my adult life as well. He was a wonderful man, and he blessed my life in ways I am sure he never knew. He has been in my thoughts often over the years. He is, and will continue to be missed.

“ I am so thankful for the God given gifts that Barry shared so freely with everyone. He always called me "Airline lady" because he knew I worked for Southwest. He was such a blessing to me. I told him once that I prayed for him because I know he had burdens from all the needy people that came to him. He told me he got tired sometimes but the Lord would kick him and tell him to get out there and help more people. He helped me so much and Im praying for his family and friends and even his customers who are feeling such a great loss. He was always inspiring and I will miss him so much. Barry was truly a great servant for the Lord and Im so sad that his time here has ended but he is now in the glory of the Lord. “ Barry helped me and my family so much over the years. He taught me the use of color in my painting. He guided me in so many directions in my career and health. If it wasn't for Barry I wouldn't have been able to do what I'm doing today. There was a time that no medical doctor in the 21 years I was seeking help. Could ever help. I had undiagnosed Lyme Disease. I know I would be here today. If it wasn't for his gentle guidance and encouragement. And the amazing supplements at times would gift to me when times were rough. “ *Barry's gifts of love, kindness, generosity, hope and healing will be missed by thousands of folks. He was my "primary care" choice! He saved my life after the death of my father when I came to him with a "broken heart". In the years since he guided me and many friends and family on their journey to wholeness on this planet. He now gets an upgrade where his service will be amplified back to all who were blessed by him in this world. To his family, prayers for your strength as you move forward in this world, knowing your father was very special and his work very blessed and your memories of him bring you comfort.*

“ Barry truly had a gift and spent his life sharing it. I'm so thankful to have known him and received his help on many occasions over the past 25 years. I remember one of my first visits to his store in Paragould . I knew he was different when he asked why I was buying so many products and began to tell me what I needed. I knew he was truly interested in my health not just in money. That was the beginning of a friendship based on trust and respect personally and professionally. Hopefully his legacy will continue and his endeavors not lost. Prayers to all who will miss him. "Health is wealth."

“ *Barry saved my life twice. First when I was 19 and I was diagnosed with the worst hyperactive thyroid a panel of 12 doctors at Little Rock had ever seen. My levels where so far off the charts they could not even be read.*

The panel of doctors told me my only option was surgery and I was told even with surgery I would only have a 50% chance of living. Through some random individuals my mother was told about a herbal doctor close by that might could help, Barry Joneshill. We went to see him the next day and he told me that my thyroid issue was because of a life long bladder infection I had and instructed me to take cranberry pills and to also go see a specific endocrinologist in Little Rock that he knew. After 6 years of medication from the endrocrinologist and the cranberry pills from Barry, I was in remission and have stayed in remission for the past 8 years.

The second time was 6 years ago when I was in and out of the hospital for almost 2 months because of not being able to breathe or swallow. I was so sick. I was down to 90 something pounds and the doctors could not figure out what was wrong with me. I went to Barry again (which had become a norm over the years) in about 5 minutes he told me what was wrong with me and where it came from. He gave me golden seal root and in a week I was fine and have never had that problem again. I visited him often over the past 14 years and I grew to love him dearly for his passion and care. He shared many wisdom's (health and non health related) and laughs with me in the time that I knew him and actually inspired me to be who I am today. Over the past 2 weeks I thought daily of Barry and tried to shift my schedule around so that I could go visit him but found myself too busy. I regret that I missed seeing him that one last time when he was so profoundly on my mind. I will always cherish and miss him greatly.

Bridget I had the blessing to drop by his place April the seventh one week before he passed to the hour. He had no one else waiting which had to be divine design. I came specifically to talk to his about mentoring me. My regret is that I did not start a few years ago when he first hinted the possibility to me. What will we do now? I hope we all will prayer for another angel to replace our Barry, one like him is so needed. If the unbelievers only knew what we all know about Barry they would be amazed. I have come to tears many times since I got the news that night from an old friend in Springhill. Please forgive me but I just had to share my feelings and thoughts. Barry seemed to be troubled, as I left his place I was wondering what was on his mind. HE took care of me for twelve years, since Feb. of 2006 never asking for a dime. WOW what a man. Who else would have done that or could do that???

Terry Coker - February 17, 2018 at 02:58 PM

I, too, have wanted to ask him so badly to guide me to learn just a little of what he knew. Don't feel bad about your regret and thoughts. I'm sure we have all thought similar. Barry was special, I learned today just how special he was to others besides me. I could have listened all day and night to the stories. What I learned from a family member and the stories I heard is listen and communicate one on one with God. He will point you in the right direction, like he did Barry. It's OK to pray for the need to have another healing angel. Hey, Barry spoiled us all. He was the best, that's what we'll want and need from now on. It's exciting to know that we got to witness the miracle.

“ Thank you Barry for all the lives you have touched with your gift, especially mine. It was an honor to have worked at times in the store with you and Mary. You always made life fun and carried a great message of healing to many. I know you will still be guiding those you love so your work is not over yet. Enjoy the peace that only God can give and may the healing angels be with your family during this time just as you helped me through my husband's transition.

He only used his talent for good and gave all he had. He played a key role in the lives of my family in more than just health, but by his personality he found a way to inspire. He will be remembered always, missed greatly and was loved by many. May God welcome him home. May God ease the pain of the ones who held him dear. “ I am forever grateful for Barry and will always hold a special place in my heart for him. He exposed me to the concept of "naturopathic medicine" over a decade ago (I still have the pamphlet from his store, Remedies, where I first read those words). Soon after my visit with him, I moved to Portland and started naturopathic medical school. I've been practicing as a licensed naturopathic doctor for 5 years now, and I absolutely LOVE what I do! It's truly a blessing to be able to help others heal using natural therapies.

Barry, you helped me find my path and calling much sooner than I would have otherwise. You will be greatly missed, but I will NEVER forget you, and I hope that you can live on through my work as a healer! Thank you so much for daring to think outside of the healthcare box so that a gal in Arkansas with dreams of healing the world could make that a reality. With love, light, and gratitude,

“ My heart is broken with yours as we all contemplate this stunning loss. Driving to Rose Bud to seek Barry’s advice and guidance was one of my favorite ways to spend an afternoon. I was always tickled when he called me “Music Man” (I’m a professional musician) and reassured me that what was wrong was easy to fix with some simple strategies.

While my grief cannot match yours, I’m also completely confident that he left us in the company of angels. Your family will be in my prayers through the year ahead, and I will ask my church to add your name to our prayer list.

God bless and strengthen you in the days to come and know you have our unconditional love and support.

I am so very grateful to God that He allowed me to witness the spiritual, healing gift of one of his children. He was one of a kind. I wish I had known him more personally. I wish he could have been my mentor. But in a way he was. I have been a seeker of meditation, natural healing, and spiritual awareness more so since meeting Barry. He had a unique GOD-given gift and ability, and was able to convey to others who came to him, in desperation often, a little spark of rekindled hope. Many were able to move on past the rough patch they'd visited him in, and live a better life for his having listened to them. He was a gentle soul with an abundance of love for all the hurting. God's Rose Bud Valentine, Barry Joneshill, will be greatly missed by many.

Dr. Barry has been our go-to doctor for over 10 years. He was kind, gentle, and a very caring and loving man of others. Dr. Barry helped our family numerous times and we know of many other testimonials personally to show that he had been blessed with a Good given talent. Not only will the local community miss him, but others from all over the United States will as well. Dr. Barry was not only our doctor, but, also our family friend. God's ways and plans are bugger than ours and not sure what good God has in mind, but can only imagine it to be huge since he called home such a fine spiritual man in Dr. Barry. He will be very, very difficult to replace. Prayers go out to his family and those that knew him. Hope I am able to celebrate your life with your family and friends.

So very sorry that the world has lost this precious soul. Barry helped so many people. I have been going to him about 15 years for different things. Last time I saw him was Friday before he left this world for a better place. My sister saw him the day before he passed. I told my sister and the friends that went with me on Friday that when I saw him on Friday he looked tired to me. I pray for his family and 11 grandchildren. Barry, I will miss you as so many will. You are no longer in pain. 😭

Dane and Chelsea, although I never got a chance to know either you- my thoughts and prayers are with you in your loss. Personally, I am heartbroken but grateful. I knew Barry for over 20 years and he was a precious friend who forever changed my outlook and my life. Although widely known for his "gift" of helping others heal (which he did magnificently)- he was SO much more. I always think of Barry as a rich reflection of his Heavenly Father- an amazing unspent force of creative energy constantly seeking new ways to express himself... in painting, writing, creating new things & ideas to share with others... in finding ways to 'invest' in others so they could fully find and express the gifts that God had given them- what a lovely and lasting legacy!

My life was enriched several years when Barry visited the Ward Methodist church. He continued to spend Sunday mornings with us. Always looked forward to his warmth, compassion, smiles and hugs. Several family members were treated by Barry with awesome results. Most of all, I will miss his calls "just to check up on you". A month or so ago he brought a shirt and gave to me. His logic was that I travel often to Florida to visit and it was a Florida shirt. I will wear it today. My heart aches today but I know he will be welcomed in his new home. Rest in peace, dear friend.

Many years ago in Skagway, my children each had the pleasure of having Barry as their 4th grade teacher. He loved teaching and loved his pupils and as adults now, they both remember him fondly. He was also a personal friend and a frequent guest at our dinner table. We were fortunate enough to acquire two of Barry's many paintings and one of them lives in my front entry where I see it and think of him every day. Nancy, we were so sorry to hear of Barry's passing and want to send our thoughts and prayers to you and your family. Barry touched so many lives in Skagway as well as around the country. May he rest in peace.
