“ I was so saddened to hear of Dr. Lowery's passing. He was a great eye doctor and I appreciated him so much. He was the only doctor who could fit glasses on a child I had taken in as a foster child. The child was mentally handicapped and could not talk. When Dr. Ben fitted him with glasses a whole new world opened up for him. He has since grown up and is in a group home. I had to bring him back to Dr. Ben for a correct fit for his glasses, no one else could get the right prescription. He kept pulling them off, but when Dr. Ben checked him, the prescription he gave worked for him. He still has the glasses today.

We were truly blessed to have known Dr. Ben. He will always have a special place in our heart.
