“ I just saw this many years too late but I wanted you to know something that has not been shared. My Mother Geneva Jordan had terrible migraines and many nights we would drive from the country to your home for her to get an injection. If she was too sick, your Father would drive out to our home to give her an injection. He and your Mother were wonderful people. Dianne Jordan Berryhill

“ Beth Ann and family, I can remember your dad and mother coming to Judsonia when I was in the first grade. He was such a knowledgeable doctor and one my family trusted and depended on for so many years. He was so dedicated to his patients. Both he and your mother were an inspiration for the long hours they spent at the office ensuring all his patients were treated. We sometimes sat for hours because we knew he would make us well. A fond memory---He gave my brother, Tommy, his first job---nurturing all those pecan trees on the farm among other chores! May God comfort you and your family.

“ *Beth Ann, Tommy, Robert, Lisa, and family,*

*My heart goes out to each of you over the loss of Dr. Jackson. Your father was a special man and a dear friend to our family over the years. I remember with great fondness the gruff but gentle nature of his personality when I was there to see him for an office visit; he was my ideal as to what a doctor and a man should be.*

*Please know that you are in my thoughts and prayers.*

*Sincerely,*
