“ words can never describe what you mean to me. When I was born you said to my mother "There's nothing wrong with her she was just left in the oven a little too long." you use to say "when I die I dont care if you burry me upside down with my butt in the air, it will give people a place to park their bike when they visit me!". you were always filled with laughter and a strong hand. You always kept things in order and kept Nanny happy. Now that your gone all I have left is the memories of you pop pop. I will never forget the love you always showed me and the tenderness you had. You are forever in my heart and I know you are watching over us. Until we meet agian Po Po...
