“ My prayers are with you, this wonderful man that was part of your family, was a real dear friend of mine, always enjoyed being in his presence, I know for sure his struggle is over and OUR PRECIOUS LORD has him in His care, because He and I always talked about the LORD and He knew when his day on earth was over He was going to be with God in HEAVEN, what a wonderful and blessed thing to know for sure! My love and prayers, Bonnie Teer.

“ Jay, I'm really going to miss our talks and being able to play guitar and sing (although not well) for you! I love you so much and you are the reason that I fell in love with music. I remember when you and mom were first married and I listened to you play your guitar and sing and at that time I could only wish to ever be half as good as you were. That is one of my favorite and close kept memories. There was a reason I thanked you in my graduation speech, and I regret not letting you know just how much of an influence you were to me. Like mom said, you and her made a lot better friends than husband and wife, but she and I will both always have a special place in our hearts reserved just for you. Lastly, I remember one other thing. Listening to you strum though the chords of Paradise by John Pryne. I learned that song and it has become my favorite song to play. I'm scared to play it now though because all I can think about is you when I think about playing it. I love you Jay, and I love that song; Paradise, And I know that that's exactly where you are! I can't wait to be with you again.

Your loving stepson,  
-Matt Rice
