“ So sad to hear, I remember her voice and how she loved to sing. It was always so great to see her at the English family reunion. I remember so well the last time we got to visit, she was in Sneedville, TN preparing to bury her son-in-law. It seemed our paths would cross by accident just as that day, more than once. May God place his arms around you during this time. I know she will be so greatly missed.
