“ I have such amazing memories of our childhood! And Lottie is a huge part of those memories. She was always laughing and contributing to our fun. Myrtle Beach after high school graduation... Every visit we've made to VA since we left in 1975 has included a visit with you and Lottie. But the dearest memory of all is that you and she came to visitation when we lost my Mom. The two of you are the only people I remember being there. I love you and pray that you will soon remember all the great times and smile.
