“ One thing I want to say is that often car insurance canceling is a horrible experience and if you are doing the correct things as being a driver you will not get one. A number of people do obtain the notice that they are officially dropped by their particular insurance company they then have to struggle to get extra insurance after the cancellation. Inexpensive auto insurance rates usually are hard to get from cancellation. Having the main reasons with regard to auto insurance termination can help people prevent losing one of the most vital privileges obtainable. Thanks for the thoughts shared via your blog.

“ Praying the love of God grants you peace & comfort at this difficult time of loss. I too remember the good old days as a student at Rossi School the first year it opened. Mr. Schoendorf was our principal. Miss Margie was my daughters bus driver in later years. Her warm smile always made my daughter feel welcome on the bus. God bless you always!

“ *Our sincere condolences to the entire Schoendorf family.*

Marge was a classmate in our graduating class of 1943. She was on our class reunion committee for many years- We share many fond memories of her and we are certain that she will be sorely missed by family and friends.

From the "Class of 1943."

“ *Dear Family,*

I remember your mother a a kind, gentle spirit. May your memories of her sustain you during this time of your loss.

Ellen Dewaele(former teacher under Mr. Schoendorf in the good years at Rossi School when it first opened, also I was Nancy's teacher)
