“ I remember Pauline and Mary coming to my house at Joy mountain to pick up fencing material to pick up chickens at my neighbors. She looked so cute in her Bib Overalls..... ready to work!

“ She lived next door to my aunt, Audrey Dixon for many years. What a sweet person. She would leave veggies on her doorstep so she would find them when she got home from work. Always generous that way. She could and did grow anything. I always loved walking thru the garden beds and being amazed at all she grew. And she did all that gardening at her age! So sorry to see her go!

“ My Dear Pauline, I have thought of you so often but didn't know how to contact you. I had a letter returned so I lost track. You were one of my best friends at G.I. And the quilt that you made for me is one of my most treasured items.

Kids I'm not sure that any of you remember me But I sold Tupperware & your mother was always getting up an order for me. I loved her very much. My thoughts & prayers are with you at this time.
