“ *Phil WArD's freindship was like standing on wet cement. The longer you stay, the harder if is to leave. But you can never leave without leaving your footprints behind. Your footprints will be around for a long in the lives of the many people you touched in your short life time.*

“ *I am deeply saddend by the news of Dr. Ward's passing. As Dan has been one of my closest friends ever since our college years, some 20 years ago, I have had the privledge and fortune of having Mr. and Mrs. Ward as my second set of Parents. Whatever Mr. Ward didn't say, Mrs. Ward was there to fill in but for the most part, Mr. Ward's approval was ALWAYS shown through his eyes and facial expressions. I am at a loss for words at this news but am a much better person today for all that Mr. Ward has done for me and my family as a whole. He will be missed but his memory lives on in the legacy that lives on in his Sons, and Grandchildren.*

“ I first met Dr. Ward when I was 16 and he helped with the high school wrestling team. Seven years later I started working with him as a nurse in L&D. He taught the right way to take care of patients and he will forever hold a special place in my heart. I will miss him, mumbling and all, dearly.

“ Patrica, and Family;

*I am so sorry for your loss. Dr. Ward was well known and liked. He was there for me since 1976, and forward. He was there for me when my grandsons passed. His love for animals I guess is what kept us connected. God bless his soul and comfort all of you.*
