

Robert Scott Butler

June 19, 1957 - July 24, 2019

Born on June 19, 1957, the third child of Sgt. John and Lorene Butler in Altus, Oklahoma.

As a child, Scott was a prolific science fiction reader and his collection of paperback books would fill a room. While a member of Boy Scout Troop 159 in Judsonia, he worked and achieved the Rank of Eagle Scout, also earning his Vigil Award from Boy Scout Service organization, the Order of the Arrow. Scott was a 1975 graduate from Judsonia High School where he was notorious for capturing pictures of alumni in some most precarious of poses... Following High School, Scott enlisted in the United States Navy and served 6 yrs. as an Electronic Systems Technician on the Nuclear Fast Attack Submarine "Haddo". He served in the Navy's Silent but Deadly force beneath the sea in the Pacific Ocean between San Diego and the Former Soviet Union; achieving the rank of E-5 before completing his enlistment commitment.

After returning home from the Navy, Scott went to work in the Engineering lab as a technician for Vickers Inc. But Scott's ambition was to continue his education. He applied and attended college at the University of Arkansas in Fayetteville under the GI Bill. Working summers in Industry and part time work at the Campus Student Union, Scott earned his Bachelors of Science Degree with focused studies in Engineering and Architecture.

Not quite ready to settle down, Scott signed on for a tour with the International Volunteer Organization, Peace Corp. After completing training in the Arabic

language, Scott traveled to Morocco and applied his knack for mechanical and electrical things in repairing drinking water delivery systems around the provinces.

It was here that he got the Motorcycle “bug”. Having grown tired of the inefficiency of having to ride the public buses everywhere across Morocco to work, he discovered several trail bikes that had been discarded on a refuse pile behind the Peace Corp compound in Rabat. Scott petitioned his Supervisor to allow him to take on the challenge of getting them running, so he could be free to travel on his own.

Scott loved to share stories of his adventures in Morocco and being a “Mohandise”.

This knack for fixing motorcycles deemed un-repairable, continued once his tour was over and he returned home stateside. Scott had a fondness for mid 70’s motorcycles and has refurbished several motorcycles which remain as part of his legacy today.

Scott loved photography, motorcycles, things electronic and mechanical. If he read about a new widget or gadget, he had to have one to play with. Scott was the family photographer often taking pictures during family celebrations and informal gatherings.

Scott passed suddenly from this earth and went to be with his maker on July 24, 2019.

Scott was preceded in death by his father SM/Sgt John, but is survived by his mother Lorene, brother John and his wife Christene; two sisters, Margaret Watkins and her husband Guy and Sharon Hale and her husband Jimmie; numerous nieces, great nieces and nephews who loved him and will miss him dearly.

Cremation arrangements entrusted to Powell Funeral Home Bald Knob-Judsonia. www.powellfuneralhome.net
