“ Sandy was a friend of mine. Mostly from my experience working as a cashier in Searcy. She was a sweet lady who always had a smile on her face. SO sad to hear of her passing.

“ I still can't believe this is real. Took lunch the other day and on the way out the door for a brief second I told myself well I'm gonna go hang out with Sandy but then I realized that's never gonna happen again. I really miss you.

“ This dear, sweet, loving and lively niece will be well remembered by her Root relatives. A picture of her smile and the sound of her laughter quickly come to mind. Her concern for others reminds me of her offer to come back to Michigan to give her expertise to personally care for her Uncle Dick suffering with MS. Yes, indeed Sandra no day shall go by without warm memories of how special you were. Loving you still.
