Tribute Wall

“*Virgil was one of our favorite cousin. We were raised around the old old home place but most of the Andersons left the area by the early 50s and relocated in California.*

I spent many happy times with Virgil, including him being one of the big boys that taught me and his two younger brothers to swim down on Kings Creek. He also arranged my first plane ride with a one eyed pilot while he was attending college at Beebe. I was 11 years old and he told the pilot to do a loop with me, scared the daylights out of me.

we all loved Virgil for the kind, generous and hardworking person he was. He was very good to his family and the community. He will be sorely missed, even by those of us who did not get to see him often.

I am sure God is happy to have him home but those of us left behind will grieve for his physical presence here on earth.

May God bless and comfort his wife Bobby and his family!!!
